Our range of personal protection equipment (PPE) and human performance, health, and wellness products are proven winners. Our PPE range of products are helping to make a difference in healthcare professionals' and patients' lives. Moreover, our range of PPE products are well established and produced to meet BSI and American standards. We've focused our portfolio on priority areas in creating products that reflect the Eagle ethos; proven quality and innovation.

Eagle International is a well-established supplier to the global healthcare market. We understand the need to supply healthcare workers with not just adequate products but those that exceed the highest standards. Being aligned directly with the manufacturers enables us to be intrinsically involved from raw material manufacture to the final product. Eagle International has been a supplier to the NHS in the UK for over 15 years.
